

the reporting requirements under the bill on whether they were confidential or not. The Workmen's Comp Court wanted them to be clearly confidential. So the committee amendments would provide for that. I ask your support for the committee amendments.

SENATOR CARSTEN: Amendment to the committee amendments.

CLERK: Mr. President, Senator Miller would move to amend the committee amendments and that is page 832 of the Journal.

SENATOR CARSTEN: Senator Miller.

SENATOR MILLER: This was an amendment that was supposed to be in the committee amendment but it was inadvertently not put in. If you have your bill in front of you, I can explain it to you. It takes out the words "or malignant". We have a situation here where we were infringing upon a voluntary organization that was already collecting this data and it was desired that we took it out. It was not taken out of the committee amendments. I would urge the amendment to the amendment.

SENATOR CARSTEN: Senator Wesely, on the amendment to the committee amendment.

SENATOR WESELY: Yes, Senator Miller said that should have been in the committee amendments. We missed it so I think it is fine.

SENATOR CARSTEN: Any other...do you have any closing, Senator Miller? If not, all those in favor of adopting the amendment to the committee amendment will vote aye, those opposed will vote no. Record, Mr. Clerk.

CLERK: 20 ayes, 0 nays on adoption of Senator Miller's amendment to the committee amendments.

SENATOR CARSTEN: The amendment to the committee amendment has been adopted. We are back on the committee amendment as amended. Senator DeCamp, did you want to speak on the committee amendments as amended? Okay, any further on the committee amendments, Senator Wesely, as amended?

SENATOR WESELY: That's fine.
